

Formerly Senior Director at the Nuclear Threat Initiative in Washington DC, Gresham has expertise in national and international disease surveillance systems in the Middle East, Southern Africa, and SE Asia, in particular managing the intersection of public health, international policy and global security.

Dr. Gresham participated in the development of the first modern tuberculosis laboratory in the Democratic People's Republic of Korea.

She earlier served as the senior epidemiologist San Diego County Health and Human Services Agency and is an adjunct associate professor with the Graduate School of Public Health, San Diego State University.
