

Dr Rajesh Sreedharan is a Medical Officer for the World Health Organization. He is part of the International Health Regulations (IHR) Monitoring, Procedures and Information team within the Global Capacities Alert and Response department at WHO Headquarters in Geneva, Switzerland.

A 194 States Parties to the IHR have been implementing these global rules to enhance national, regional and global public health security. As part of his work, he is responsible developing and maintaining cross-cutting global guidance and tools on IHR assessment, planning and monitoring along with implementing, monitoring, strengthening and evaluation of IHR core capacities in WHO States Parties and WHO Regional Offices in this regard.

Dr Sreedharan is trained as a physician and has a degree in Public Health. Before working at WHO HQ, he was with the emergency preparedness and humanitarian action (EHA) programme in the WHO Eastern Mediterranean Region (EMRO). He was based in Sudan as an epidemiologist responsible for communicable disease outbreak alert and response operations and worked extensively in Darfur and South Sudan. His next posting was to the WHO office in West Bank and Gaza office as programme manager. The EHA programme works closely with Member States, international partners and local institutions to help communities prepare for, respond to, and recover from emergencies, disasters and crises. Prior to his work in the Eastern Mediterranean Region, he worked as an epidemiologist in the communicable disease surveillance and response team in WHO South East Asian Regional Office responding to the 2004 Tsunami.
