

Dr. Marguerite Pappaioanou is a veterinarian and epidemiologist with over 30 years' experience working in global and U.S. public health. She joined the Bethesda-based Development Alternatives, Inc. (DAI) in January 2012, as Senior One Health Technical Advisor to the USAID funded Respond Project, Emerging Pandemic Threats Program. From 1983-2005 she served at the U.S. Centers for Disease Control and Prevention (CDC), beginning as an Epidemic Intelligence Service officer, assessing the effectiveness of malaria drugs in African national malaria control programs, and then as a staff epidemiologist, designing and implementing the family of HIV seroprevalence surveys, directing the USAID funded global capacity building Data for Decision Making Project to strengthen evidence based policies and programs in Africa and South America, supporting field epidemiology training programs, designing emerging infectious disease surveillance, prevention and control programs, and as Associate Director for Science and Policy in CDC's Office of Global Health during 1999-2005, coordinating CDC's programs in Africa and Asia. From February 2005 to October 2007, as Professor, Infectious Disease Epidemiology, University of Minnesota, she led research programs focused on surveillance for emerging zoonotic infectious diseases at the human-animal interface, particularly avian influenza. From 2007-2011, she served as Executive Director of the Association of American Veterinary Colleges. During 2008-2009, she co-chaired the Institute of Medicine, National Research Council Committee on Sustaining Global Surveillance and Response for Emerging Zoonotic Diseases. She received her Doctor of Veterinary Medicine degree from Michigan State University in 1972, Master of Preventive Veterinary Medicine and Doctor of Philosophy degrees from the University of California, Davis, in 1976 and 1982, respectively.
